EXPERIENCE

Freelance Web Developer — Sited.nz

June 2016 - PRESENT

I managed the end-end creation of custom and CMS websites for top restaurants in Auckland. This involves managing client expectations and collaborating with designers.

For portfolio of this work, please see - Sited.nz

Responsibilities

- All client communications; requirement gathering and stakeholder management
- Planning and translating business requirements into development
- HTML and CSS website development
- Launched websites in conjunction with marketing campaigns
- Creating documentation for non-technical CMS users

Front End Developer — govHack 2016 Team Entry

I collaborated with a team of six to build a solar power recommendation app in 48hrs. This utilised NIWA government data and user locations to estimate the solar energy potential of a property.

github.com/omnidatum/omnidatum.github.io

Responsibilities

- Led team and delegated work in an agile team
- Assisted in defining product focus
- Created dynamic graphs using D3.js

Project Assistant — University of Auckland

August 2015 - May 2016

I assisted with data collection and entry for the implementation of a large university-wide chemical inventory system.

REFEREES

Genette Hodson

Project Manager, University of Auckland

EDUCATION

FreeCodeCamp.com — Full Stack Developer Certificate

FEBRUARY 2016 - PRESENT

University of Auckland — Postgraduate Diploma, Applied Behaviour Analysis

FEBRUARY 2013- NOVEMBER 2013

University of Auckland — Bachelor of Science, Psychology

FEBRUARY 2010 - NOVEMBER 2012
